# Union School District No. 2

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the citizens and parents residing in Union school district:*

Since the report of the Board made at the close of the last fiscal year of the District, our schools have been moving forward harmoniously and progressively and have not been characterized by any special or unusual event.

At the end of the school year, the corps of teachers then on the roster was employed for the present year, with Miss E. Belle Calley as principal.

So far as we have been able to judge from observation and to learn from other sources they have all been assiduous and faithful in the discharge of their various school duties and interested in the moral as well as the intellectual welfare of the pupils.

On the other hand the scholars as a whole have been studious and attentive to their duties, respectful, tractable, interested in their school work and have made commendable progress.

Instruction in physical culture, physiology and hygiene has been given in all of the schools and in the upper grades in the constitution of New Hampshire.

The health of the children generally speaking, has been excellent. They have not been afflicted by epidemic or serious malady.

In the autumn the scholars in grades eight and nine, under the direction of Miss Calley, held a Turner Art

exhibition in the town hall, which was both interesting and instructive; from the proceeds of which they were enabled to place two fine pictures on the walls of their school-room, the Jungfrau, and Washington crossing the Delaware. Subsequently the Castle of Chillon was kindly donated to this group by Miss Calley.

During the year a fine large picture of Dartmouth College and grounds, duly framed, was presented to the district by the College and hung on the wall in the High school-room.

On February 12th, *proximo*, in accordance with the proclamation of Governor Quinby all of the schools observed the centenary of the birth of Abraham Lincoln, of immortal fame as the Great Emancipator, and Unifier of the States of the Union, with appropriate exercises. An extended program was presented by the High school, under the direction of Miss Burpee, to which, grades 6 and 7, 8 and 9 were invited and attended. As the public also had been invited, there was a fair attendance of parents and citizens, mostly however of ladies, the distinguished editor of *The Enterprise* being the only gentleman present, besides the Superintendent, on the part of the citizens.

A new flag-staff has been erected in the school-yard and as the present ensign has waved on high so long that it is much tattered and torn, it will be necessary for the district to purchase another large flag in its place.

The school grounds have been somewhat improved during the year, but still further improvement is desirable.

The new heating apparatus is giving satisfactory results.

The sanitation of the buildings has been carefully

looked after by the janitor. The vaults have been frequently disinfected.

It is a matter of regret that only a very few of the maple trees that were set in the school grounds last year are now alive. It is hoped that on Arbor Day, or some similar day, the older pupils will be interested in replacing these trees.

The finances of the district are in a satisfactory condition.

The High school has again been approved for a two years' course.

The board would be glad to have parents and friends visit the schools more frequently than they have heretofore done.

Parents and teachers both have duties most important in relation to our school children. The home is the chief nursery of the manners and habits of the child. Therein to a great extent are laid the foundations of life and character. The home life is usually reflected in the school life and *vice versa*. The school is the supplement of the home. "Manners must adorn knowledge and smoothe its way through the world." Mere book learning is a small part of true education.

Hence it is important for parents to take a deep personal interest in the spiritual, moral and intellectual welfare of their children, especially at home and outside of school hours, as to their conduct, habits and mode of passing their time, and to encourage them in ways of goodness and virtue, to make their lives as cheerful and comfortable as they may be able.

It is also the duty of the teacher not only to possess the *suaviter in modo* and the *fortiter in re* but to take a personal interest in the education and welfare of each

pupil, to supplement the home influence when good, to correct when bad, and to supply when lacking, the needed influence as far as may be possible.

Our school children are rapidly becoming men and women, are going out into responsible life. Our taxpayers have thus far generously supplied the means to enable the pupils to start the educational wheels. It remains with the parents, teachers and friends of the children to take the right initiative on their part to encourage high ideals of life and character, to assist them by precept and example in developing into noble manhood and womanhood, so that they may be well fitted to adorn whatever station in life it may become their desire or duty to fill.

The roll of honor for the past year is appended to this report.

The present members of the Board of Education are Messrs. Frank N. Gilman, chairman; Albro Wells, secretary and treasurer; Roswell Cutler, Mrs. Ada B. Cavis, Mrs. Mabel M. Ladd and Ira A. Chase.

Respectfully submitted,

For the Board of Education,

IRA A. CHASE, Supt.

## Minot-Sleeper Library

---

The trustees submit herewith their annual report:

So far as the library is concerned the year has not been characterized by any special or unusual event.

During the year 182 new volumes have been added to the circulating department, making a total of 7,414 in this department. One hundred, and eighty reference books and pamphlets have been added, making 585 on the shelves exclusive of about 800 in the gallery.

During the year 8442 books have been withdrawn from the shelves and the Day-Jackman reading-room has been patronized by 1338 patrons.

The card catalogue has been brought down to date. In addition to the books of fiction, valuable biographical, historical and scientific works have been added. Among these are Elson's New History of the United States, Library of Romance, being the Romance of modern Science, Books of Travel, Century Book of Facts, and valuable works of reference.

The following magazines are supplied to the reading department from the Day-Jackman fund, viz; Atlantic, Century, Cosmopolitan, Country Life, Everybody's, Garden Magazine, Geographical, Granite Monthly, Harper's Monthly and Weekly, Ladies' Home Journal, Leslie's Weekly, Munsey, McClure's, North American Review, Outing, Outlook, Review of Reviews, St. Nicholas', Scribner's, World's Work, Youths' Companion.

There have been no special gifts of books, maps or

other things during the year other than those from the State of New Hampshire and departments of Washington, except an occasional volume of which a record has been made in the accessions book.

The exterior of the building has been repainted in light brown color which is much more artistic and pleasing to the eye than the dark color previously used.

Mrs. Mary A. Dodge has been the librarian and Miss Helen Sibley has acted as assistant librarian during the past year.

New shelves have been added under the windows and in some of the corners of the library room. A substantial addition to the building will become necessary in the near future. Probably the true solution of this question would be to build in the rear of the present structure a connecting main building for the circulating department and as a museum, using the present structure as a reading room and for the reference books. This is an important subject for the consideration of all interested in the welfare of the library.

The trustees would be glad to receive suggestions from any one relative to the matter, which necessarily in a short time must be brought before our citizens at some annual or biennial meeting for solution and definite action.
